

We, the undersigned, are proud to confirm that all our shell eggs and/or all our egg products are 100% cage free, in Europe.<sup>1</sup>

We are pleased that our business decision, withstands ethical, responsible, and commercial viability, as we remain committed to a cage-free life for laying hens. Furthermore, we believe that prohibiting the use of cages in European legislation will enable a level playing field amongst competitors as well as demonstrating European leadership in getting hens out of cages.
